VOL. 6 NO. 35.

BOW ISLAND, ALBERTA, FRIDAY AUGUST 31, 1917

SUBSCRIPTION \$1.50 A YEAR.

**RESOLVED**  
THAT WHEN THE CHILL  
NIGHTS OF AUTUMN COME  
IS WHEN WE NEED THOSE  
OVER GARMENTS THAT  
KEEP US WARM. IF YOU  
GET THEM AT THE RIGHT  
PLACE THEY WILL NOT  
ONLY MAKE YOU FEEL  
COMFORTABLE BUT LOOK  
SO. **BUSTER BROWN.**

LET US MAKE YOU

A TAILOR - MADE SUIT.

**FERNE BROS., CLOTHIERS**  
BOW ISLAND MACLEOD

**YOUR MEAT WILL WEIGH**  
exactly what our scales tell.  
For they are guaranteed to  
be absolutely accurate.  
Thus you get exactly what  
you pay for. Another point  
about this market is that  
we cut as closely as possible  
to the exact quantity of meat  
you ask for. We don't have  
to cut off a pound or so in  
order to swell sales. Our  
meat sells plenty well  
enough on its merits.

## A Water Supply for Bow Island.

What is Bow Island going to do relative to a permanent water supply. The present system, although fairly satisfactory as far as it goes, cannot last forever and serious consideration must be given to this matter—as well now as later on. The water tank supplies our domestic requirements, but it does not solve the problem of fire protection, and one is almost as essential as the other.

Several solutions to the matter have been presented from time to time, one of them being to pipe water from the springs in the coules near the Townsley farm. This source has the advantage of being the nearest to town, and having been tested as to the quality we know it is all right in that respect. The question arises, however, whether it would be possible to get a permanent and sufficient supply for our needs from the coules.

Another solution advanced is to obtain the water from the river. This source we know to be a permanent one, but unfortunately lies undisturbed in the coules near the Townsley farm. This source has the advantage of being the nearest to town, and having been tested as to the quality we know it is all right in that respect. The question arises, however, whether it would be possible to get a permanent and sufficient supply for our needs from the coules.

Another method of obtaining water (and this is one that is supported by many as being the most feasible as well as being the cheapest) is by drilling. Experiments already made in the district, notably those by the Canadian Western Natural Gas Co., have proven the existence of an ample supply at distances varying from 400 to 700 feet down. Mr. D. B. Dowling and Mr. Slipper, government surveyors, spent several months in this district in surveying the rock and shale exposures and examining the logs of such deep wells as were available. They reported that some three to five hundred square miles of territory was underlain by a sandstone carrying water, and that it could likely be got by boring six to eight hundred feet depths, which would bring in flowing wells. It was estimated that it would cost four to six thousand dollars to get a six inch well down that far. Around Bow Island at nearly every one of the gas wells water has been obtained in large quantities and it is practically sure that if the town went down deep enough it could get water. Whether this could be used for domestic purposes, however, is problematical, as most of the water obtained from the deep wells hereabouts seems to be unfit for that purpose.

In preference to following any of the methods enumerated above, some would be in favor of giving a franchise to a company. There is this drawback, however, in relation to this. You have got to find the company or individual who will be content to finance the undertaking and run the system for a year or two without revenue.

## 1,600,000 Bushels of Wheat

Shipped out of Bow Island makes it the Premier Wheat Shipping Point of Alberta.

(Lethbridge Herald)

With the end of the 1916-17 crop year less than a week away, Bow Island is in a position where she cannot be displaced as the leading wheat shipper for the year. To date Bow Island has shipped over 1,600,000 bushels of wheat since September 1st, 1916.

Barons is the next shipper with slightly over 1,200,000 bushels, and then in order come Vulcan, Claresholm, Carmangay, and Champion all with over a million bushels of wheat. Total shipments for the district consisting on Lethbridge are now well over the 30,000,000 bushel mark, though this includes other grains as well as wheat.

It is considered the fight for honors next year will be between Barons and Claresholm. In 1916-17 Barons was the leading wheat shipper with over 1,000,000 bushels.

## Conscription in Force

Canada's military service bill is now law. It was signed by the Duke of Devonshire, the governor-general, at the Ontario Government House shortly before six o'clock Tuesday evening.

Such regulations and tribunals are completed, which will require two or three week's work, a proclamation will be issued, ordering those of the classes subject to call, "single men between 21 and 34 years of age" to report at points in several districts, which will be designated in the proclamation. The parliamentary committee to select one member for each of the appeal courts has not yet been completed, owing to the delay in securing from the opposition leaders the names of those who are to be appointed by him to this body.

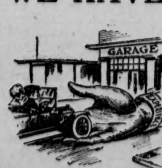

G. T. Jones of Gleichen has sold a cord of hickory for \$100.00. This means \$45.70 for one single porker. This is stated to be the most valuable shipment of live hogs ever sold on the Calgary market, and the chances are that it will stand for some time to come. The carload weighed 21,000 lbs. and sold at the top price, 19 cents, the average weight being 241 pounds.

In the good old frontier days the ranchmen thought they were in clover when they could secure as high as \$40 a head for their steers.

As has already been stated, the question of a water supply is one that should have serious consideration, and especially just now when the matter of providing fire protection is so urgent.

Indeed the whole thing is so important that possibly the matter could be better discussed, and the views of ratepayers more easily obtained at some public meeting.

## WE HAVE ON HAND

every facility for quick and thorough auto repair work. No delay here in getting your car ready for service again. So when your machine has been damaged or become worn send it to us in full confidence that you will not be long without the pleasure of its use.

The Heart of a Piano is the  
Action. Insist on the  
**Otto Higel Piano Action**

**MONKEY ORBLES**  
Send a Dime for Sample. Many Orders.  
Five dollars cash three cents.

**The Duty of The Individual**  
Economy is Needed in the Use  
of Food Stuffs

Strict economy is needed in the  
use of all food stuffs, and every  
individual householder. Our  
food supplies must be conserved,  
but they should not be hoarded. Of  
what use is a mine unopened, a  
forest untouched or land uncultivated?  
By the conservation of our food supplies  
we mean that they should be used in  
the wisest possible way and shared  
equally. We should eat our vegetables,  
fruits and berries, and eat the things  
that are substantial, plain and  
nutritious. The food that is produced  
in Canada, such as corn,  
wheat, beans, oats and barley, which  
are not used as much as they could  
and should be. Our food should be  
made to care for and properly use  
the garden vegetables much of this  
material will be wasted. These things  
should be canned wherever possible.  
Naturally, tomatoes, and  
other vegetables should be put away  
for winter use.—E.C.N.

**Conquers Asthma.** To be relieved  
from the terrible suffocation due to  
asthma is a great thing, but to be  
satisfied for the future is even  
greater. Not only does Dr. J. D.  
Kellogg's Asthma Remedy bring  
prompt relief, but it introduces a new  
era of life for the afflicted. Science  
in the remedy prevents re-attacks  
and often effects a permanent cure.

**A Reminder.** A colored preacher was vehemently  
denouncing the sins of his congregation.  
"Brother James," he said, "you are  
a good man, but you are a bad man."  
All charges were against the  
black race. He said, "You are a  
bad man, but you are a good man."  
A brother in the back seat made an  
odd sound with his lips, and  
snapped his fingers. "Then he said  
again with an angry look, 'You are  
a bad man, but you are a good man.'"  
"Whiffo, mah fress," said the parson  
tapping his fingers when Al speaks of  
snapping your lips."

"You're a good man, but you're a  
bad man," the man in the back seat answered freely.  
"You're a good man, but you're a  
bad man," the man in the back seat  
answered freely.

# One Good Turn

Kindness to Boche Prisoners Is Rewarded After 47 Years

French indifference to German prisoners during the war, the long and arduous journey of the German officer prisoner, and his life in a "boche camp" for the attention of the world. During the long and arduous journey of the German officer prisoner, and his life in a "boche camp" for the attention of the world. During the long and arduous journey of the German officer prisoner, and his life in a "boche camp" for the attention of the world.

Many children die from the assaults of insects and the first step in insect control should be to see that their insects are free from these pests. A vermin that can be destroyed is in the hands of the French. They will not only be free from these pests, but they will be free from these pests.

## Waste of Food Stuffs

Oats and Ends Thrown Away Amount to Vast Sum

Do not waste a slice of bread, a crumb of meat, or a scrap of fat. If there are many individuals saving the waste, it will be a vast sum. If there are many individuals saving the waste, it will be a vast sum.

## Smallest Fighters In The Great War

Students From French Colonial Schools in Indo-China Volunteered in Mass

Amateur troops, "Les Fils Indes," of French colonial schools in Indo-China volunteered in mass. They were the smallest fighters in the great war.

## Minard's Liniment Cures Dandruff

Silent Complaint

A complaint which is not a complaint is a complaint. It is a complaint which is not a complaint. It is a complaint which is not a complaint.

To whom the same may concern: Notice is hereby given that by virtue of power granted under Section 208 of the Rural Municipality Act, and of the By-Law No. 61 of the Rural Municipality of No. 10, County of No. 2, dated August 11th, 1917, 2 Cows, one black and one red with white face branded HM on left hip, was impounded in the pound kept at Bow Island, Alberta, on the 14th day of August, 1917. Dated August 18th, 1917. W. H. POOTE, Poundkeeper, P.O. Bowland, Alta.

**SYNOPSIS OF CANADIAN NORTH WEST LAND REGULATIONS.**

THE side land of a family, or any other land, may be surveyed as a quarter-section or available homestead land, in Manitoba, Saskatchewan or Alberta. Application must be made in person at the Dominion Lands Office in the nearest Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not sub-Agency), on certain conditions.

Duties—Six months' residence upon cultivation of the land in each of three years. A homestead may be taken within any of the three years, on certain conditions. A homestead is required except where residence is required in the vicinity.

Live stock may be substituted for cultivation on certain conditions. In certain districts a homestead may be taken on a quarter-section of land, outside the homestead. Prior to 1900 the homestead was a quarter-section of land.

Duties—Six months' residence on each of three years after entering homestead; also 20 acres extra cultivation. Preemption patent may be obtained as soon as homestead is entered, on certain conditions.

A settler who has exhausted his homestead right may take a purchase homestead in certain districts. Price \$200 per acre. Duties—Must reside six months in each of three years, cultivate 20 acres and erect a house worth \$200.

W. W. COLEY, Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.—111.

**"Town and Country"**

Miss Love of Calgary, is, visiting with Mrs. Geo. Bedell here this week.

Mrs. A. Bulfinch was taken to the Medicine Hat hospital last Friday.

The Court of Revision of the Rural Municipality of Bow Island will be held on September 6th.

Mrs. J. F. Hurst and her daughter Miss Rosie is paying a visit to friends at Estabrook this week.

Mrs. R. L. Stone, Mrs. E. R. Thompson and Mrs. Hix noted to Medicine Hat on Monday.

Miss E. Baker has accepted a position in the local post-office, thus relieving Mr. J. W. Hopkins who expects to be called up this week under class one.

Mrs. Leary has let the contract for the building of a large house south of the track, operations upon which were commenced this week.

E. P. Blackford, manager of the Canadian Apparel Co. was here this week and appointed E. A. Nevers his local agent for measure-to-measure clothing.

Wadhell Bros., south of town, are building an up-to-date bungalow upon their farm, and according to our informant they are putting it up with an eye to rent.

Mr. and Mrs. Jas. Halloran have taken up their residence within the past few days in the Carson house near the track. Mr. Halloran arrives here from Margrath and will assume charge of the Olgive elevator.

Mrs. Adams Mrs. MacWilliams' mother, has now left the hospital at Medicine Hat, and residing in a private residence with her daughter for a few days previous to returning to Bow Island.

Mr. and Mrs. Lou Hamilton, of Calgary, who always receive a warm welcome from their many friends here returned home last Friday from a pleasant visit paid to the former's parents.

Andrew Swanson was badly shaken in an accident that befell him on Tuesday which, mauling lumber in the Pioneer Lumber Co.'s yard. Happily his injuries were not serious and a little rest will probably restore him to his natural self.

J. M. Gibbons, who recently took over the post-office at Maly from Mr. Boren, has nearly completed his arrangements made necessary by the change and within a few days everything will be running as smoothly as possible.

Real estate in Bow Island is apparently still a lively issue. Sixteen lots, all situated south of the track, were disposed of this week by Needham & Baker to different parties. Two of the latter Mr. Gonsiore and Mrs. Hart, intend to put up houses right away.

Nowhere does prohibition find a more ardent supporter than in E. E. Willard, the owner of the planing mill south of the track. Since that memorable July 1st he has simply been overwhelmed with orders for water-tanks—and the deluge still continues.

**LOST.**

On the road between Bow Island and Nemiskam, a parcel containing a blue shirt and coat, Shantung Middy suit, and other material. Will make acquaintance with Mrs. Roy Harty, Nemiskam, Alberta.

**For Sale.**

1 Red Horse, weight 1050 lbs, to sell on trade for a cow. Also two Silver Calves, 4 and 8 months respectively, and two White Wyandotte Chickens for sale. Apply Section House, Bow Island, Alberta.

**For Sale**

Seven horse-power gas engine for sale. Apply—Geo. Bedell, Bow Island.

**For Sale.**

A small house for sale. Apply—S. G. Jamieson, Bow Island.

Geo. Bedell, agent for the Somerset Marble and Granite Co., has placed at the order of the Wadell family a fine marble stone at the grave of their mother buried recently, and enclosed the whole with a pretty ornamental fence. Mr. Bedell has also removed another hand-made stone this week for Martin Brunst.

A roll of honor, upon which the names are inscribed of those members of the Church who have left for the front, has just recently been hung up in All Saints' Church. The ornamental work upon the scroll was beautifully executed by Mrs. J. H. Peterson. The lettering was done by Rev. Herring, whilst the task of framing it was left in the hands of Geo. Bedell.

M. J. Harford returned to Bow Island from a visit to his home in Montana. Eureka, a town about 10 miles south of Fernie, where he was visiting, some time ago put in a ditch costing the farmers some \$30 per acre, who expected to get results from the undertaking this year. Unfortunately the ditch gave way and where it was expected to harvest a big crop everything is burnt up. Around Spokane the crops are expected to average about seven bushels. Around Eureka, however, the dry weather has had a most adverse effect and nothing is expected from this big stretch of territory. Southern Alberta can't keep its soils.

Women Are Eager to Serve

Mrs. Frank A. Vandellip, wife of the President of the National City Bank in New York, has been extremely active in war relief work, both as a worker herself and as a director of the thousands and one organizations that are open to women at this time.

Writing in September issue of Harper's Bazaar, now ready, Mrs. Vandellip makes this statement: "Women are eager to serve. They have always served at home. Now our government needs their work outside their homes. They will be ready for every sacrifice. I believe that the idea of democracy with its promise of opportunity for every child, is a clear and definite belief in the minds of women, and that we are ready to give to our utmost to create a world democracy."

Among the great things done by women this far, Mrs. Vandellip mentions the development of the Red Cross, the Increase and Conservation of the Food Supply, the taking of the Military Census of Resources, and helping to raise our recent Liberty Loan.

**A Great Bargain.**

The war has inspired by The Family Herald and Weekly Star of Montreal is now ready for distribution. It is certainly a great map and a great help in following war news. It is greatly praised by returned officers and men. The price of The Family Herald is now \$1.25 a year, a smaller increase than was expected, and with the map given with each subscription it is cheaper than ever. The map alone would cost six months. The paper and map are given to both new and renewal subscribers at \$1.25 a year, but the map cannot be secured otherwise. The Family Herald is the greatest family and farm paper on the Continent and a great credit to Canada.

Apparently there is no reason why we should fear a potato shortage this year, and unless the Alberta crop turns out to be a poor one there is nothing to force a high one. Both Ontario and British Columbia are reported to have good crops and the United States has raised 50,000,000 more bushels this year than ever before.

In Calgary it is stated potatoes vary in price from sixty to eighty cents a bushel. Efforts are being made there to assist potato-growers in storing their surplus crop and considerable accommodation has already been prepared in the city. One applicant for storage stated he had 175 acres of potatoes and another fifty acres.

Locally the potato crop will not be a large one, and probably this applies to most of the country south of the main line of the C. P. R.

## Burdett.

Nels B. Strom commenced threshing operations at his farm last Monday.

Frank Ross of Lethbridge has accepted a position in Fletcher's general store.

Mr. W. J. Elliott, our genial Customs officer, paid a flying visit to Nelmcam on Sunday last.

Del. Anderson, Miss Anderson and Miss Chudwick motored to Lethbridge last week-end.

Mr. and Mrs. Jan. Neil paid a visit to Mrs. O. W. Hart at the hospital, Foremost, last Sunday.

Hugh McGalliard, who has been on the sick list, is now, we are glad to report, much better and able to get around again.

John Donaldson, another of our prosperous farmers, is reported to have got thirty bushels of wheat to the acre of high grade.

R. Linhart arrived here recently with his threshing outfit from Montana and commenced threshing operations at Dore Bros.' farm on Tuesday.

Jim Lynn's threshing outfit started operations on Wednesday. H. E. Barlin's and Hamel Bros.' crews commenced on Tuesday.

Mr. McKinnon, our local bank manager, and Mr. A. Waddell spent Sunday at the ranch of Mr. and Mrs. Jan. Neil, south of town, and, needless to say, had a fine time.

Mr. and Mrs. W. D. Anderson and family, who have been spending a few days at Banff, returned home on Sunday night. They report having had a most enjoyable time.

W. T. Fletcher returned home on Sunday from a pleasant visit paid by him to different points in the States, including Utah, which by reason of his early associations with it had a particular interest.

Mr. Martin Johnson, south of town, a well-known and prosperous farmer in this district, has again been fortunate in his crop and has succeeded in getting fifty bushels to the acre. This is the highest so far we have heard of.

Messrs. Larsen and Ostman's hardware store is being re-modelled in its interior by having the office removed to an addition recently erected at the rear of the store, thus making extra room for the increased stock which is now arriving.

Mr. W. M. Reber, who recently disposed of his general store, is not allowing his energy to lax in the slightest degree. His activities are now apparently directed to his farming interests, some of which are amongst the most prosperous in the district.

Fred Lindsay, manager of the Stacey Lumber Co., is doing a big business at the local yard. The farmers especially are buying large quantities of lumber for barns, granaries, houses, etc., showing that fast as the trees are growing, the country is keeping fully in line with it.

Mr. G. H. Johnston, our local coal merchant, has been exceedingly busy during the past week supplying many of the local business houses with their winter's supply of fuel. The Standard Bank of Canada, the Customs office, Mr. A. Waddell and others have all been the recipients of his coal, and, accordingly, Others should take note.

R. Fennell, our local painter and decorator, has just finished his contract on Mr. Kilnand's house, south of town. His work there has evoked very favorable comment and considerable credit is due the decorator for his excellent display. He is now engaged on

similar work at Mr. John Clark's north of town, where his new residence is now being finished. Mr. Clark has been successful in installing the natural gas, a great boon, and has also put in a system of hot and cold water, an improvement that very few are able to effect.

Messrs. Coughley & Kerr report that since taking over the garage business from Jas. Lynn the work has been so pressing that it has kept them going almost night and day. In fact orders are coming in almost faster than they can take care of them. In common with every other town, they are finding it increasingly difficult to get repairs. The delay occasioned so far, however, has been but slight and they are hoping to meet the requirements of their customers without serious inconveniences.

Mr. and Mrs. M. A. Hardie expect to move into their new residence south of the track about Wednesday or Thursday of this week. The placing is now completed and with the exception of a few finishing touches the house is ready for occupation. In addition to the five-roomed house, Mr. Hardie has been very fortunate in obtaining a splendid supply of water so close to the house. A well eighty-four feet deep has given him sixty feet of water of a first-rate quality, and the large quantity available makes him of a plentiful supply for all purposes. Mr. Hardie drilled a thirty-two inch hole and it filled up with forty feet of water just under the hour. His flour and feed mill will be started within the next few days, the success of which, if one is to judge from the numerous inquiries made by the farmers, is assured.

H. Niece of Lowmanks, R.R. No. 3, and John Emerson of R.R. No. 1, Attercliffe Station, Ontario, arrived here on Monday to visit friends of theirs in the district. They state they had heard so much of Alberta, and this district in particular, that they had conceived an anxious desire to see this great province. Their expectations and they were delighted with it. The crops surprised them and on being informed of the small amount of moisture obtained here they could hardly credit the fine yield which the farmers were now securing. Mr. Niece stated the wheat down around his home would yield probably 25 bushels. The hay and oat crops were good. It is the general wish that one visitor may enjoy their visit sufficiently well to remain here.

## School Re-opens Sept. 4th.

The School Trustees have now made their final arrangements in connection with the re-opening of the schools here on Tuesday, September 4th. Teachers have been secured as follows: Miss Harrington, graduate of Dalhousie University, Prince Edward Island, will take charge of the senior work and Miss Boston, late of Wisconsin, a sister of Mrs. Lombard, of Burdett, will assume charge of the primary school. Miss Campbell of Calgary has been secured to take over the Rockford school. All three teachers will come here Monday morning and the tuition to be given in the Burdett schools this year is expected to be of the best.

Until the new school is built the Trustees have arranged to take over the Methodist church for the higher grades thus leaving the old school to accommodate the remainder of the pupils. This year it will be possible to take pupils up to grade eleven, a step that will no doubt be highly pleasing to a large number in the district.

It is expected that about fifty pupils will be present to take part in the opening exercises on Tuesday, a number that probably will be increased still more within the next few weeks. A large consignment of school supplies, consisting of desks, books, and the usual equipment, are expected to arrive this week.

## Why Trade Blackens

Business was slack, but Jess, the barber, hearing a customer's soap, immediately bustled himself with a razor.

His spirit dropped, however, when informed that the man wanted nothing more than to have his hair trimmed.

"That's your lot, don't you, sir?" he inquired, as he snipped the hair round the customer's eyes.

"Yes, how do you know that?" "No barber would turn out a job like that in these hard days. Besides, we might as well shut up shop if everyone shaved themselves."

"Perhaps," murmured the customer indifferently, adjusting the towel round his neck.

"Come, snipped and cut in silence, but after a few moments broke out again in an agitated tone of voice:

"You're in business, ain't you, sir? Well, suppose no barbers ever bought of you, how would you like it?"

"Absolutely awful," answered the customer offhandedly. "I sell nothing!"

## Faith and Good Works

The Rev. Father O'Leary was off to catch the Dublin express. On the way to the station he ran into his bishop.

"Well, what's the hurry, O'Leary?" said he.

"Dunno, it's the Dublin express I'm after, your lordship."

The bishop pulled out his gold watch. "Well, there are seven minutes yet, let us walk together and both catch it."

They arrived at the station just in time to see the train steaming out.

"Do you know, I had the greatest faith in that watch, O'Leary," said the bishop.

"Ah! my lord, what is faith worth good works?" replied the angry O'Leary.

## Pat Was Ready

An Irish soldier on duty had orders to allow no one to smoke near his post.

An officer with a lighted cigar approached, whereupon Pat boldly challenged him, and ordered him to put it out at once.

The officer, with a gesture of disgust, threw away his cigar; but no sooner was his back turned than Pat picked it up and quickly relit to the contrary.

The officer, happening to look round, observed a beautiful cloud of smoke issuing from the box. He at once challenged Pat.

"Smoking, is it, sir? Dead, and I'm only keeping it lit to show to the corporal, when he comes an evidence again!"

## But He Didn't Come Again

The appetite of the guest was a keen one, and he was doing full justice to the excellent dinner provided by his host.

The little daughter of the house watched him open-mouthed for a while. Then, finally, she smiled at him brightly and said:

"Oh, I do wish you were here to dinner every day."

The guest beamed with satisfaction. "Do you, my dear? Why?" he inquired.

"Because," came the unexpected reply, "there won't be anything cold to eat to-morrow."

## Afraid to Stand Up

"Indeed," the lecturer went on, in a quivering voice, "I believe I am justified in asserting that nine women out of ten practically propose to the men they become engaged to. As a test, I would ask all married men in the audience whose wives virtually popped the question to them to rise."

There was a subdued murmur in the auditorium, and in the dense silence that ensued could be heard sibilant "ladies whisperers in concert, 'Just you dare stand up!'"

## Beautiful Buttone

Mrs. Dashahead (visiting at the exchange) "What beautiful buttons you are saving on your husband's waistcoat! Do you know, my husband once had some just like them?"

The Family Herald and Weekly Star with the Bow Island Review and Big War Map. **\$2.50**

## Will YOU Give 3-1/2 Cents a Day to Keep A Child From Starving?

If you will, read this appeal carefully then decide what share you will take in helping avert the greatest tragedy of all time.

**1,250,000 CHILDREN ARE FACING SEVERE STARVATION IN BELGIUM TODAY.**

The Belgian Relief Commission has not the means to supply these growing children with the food that is necessary. THE SITUATION IS SERIOUS. This great relief fund has largely been administered through Americans; the break between the States and Germany has brought about a crisis; there is more need of funds now than at any previous time.

**THE GREAT RELIEF WORK MUST AND WILL GO ON. WE MUST DO OUR SHARE.**

At the present time the growing child in Belgium receives only a "hunk of bread and a bowl of soup" each day. It is not enough; they must have more—or starve.

For 3-1/2 cents a day the Relief Commission can supply one child with an extra "meal" of a biscuit made with fat or lard and a cup of cocoa, not much, but it is the difference between life and death, between health and disease, for the children of heroic Belgium.

**ALBERTA HAS BEEN BLESSED WITH TWO RECORD-BREAKING CROPS.**

We are prosperous—the future looks bright—we are in a position to help. How many starving children can you look after? How many will we look after?

## HOW MANY WILL YOU FEED?

\$12.00 a year, the price the Alberta farmer received for eight bushels of his wheat, will give this extra "meal" to one child for a whole year. 10c a day or \$36.00 a year will keep three children from starvation. \$60.00 a year will feed five; \$120.00 a year will feed 10.

## WERE YOU EVER HUNGRY?

Can you picture starvation, the pinched faces, the piteous cries? IF THE CHILDREN WERE STARVING IN ALBERTA you would help—

## YOU WILL HELP IN THIS CASE

You can't pass by the children's cry for food from starving Belgium! AND YOU MUST ACT NOW

The thought that you are feeding some of these unfortunate each day will bring you happiness. Think of the eager little hands reaching for the meal you supply.

Your own meals will taste sweeter when you do your share. The paper in which you are reading this is doing its share by publishing this appeal without charge—WHAT WILL YOU DO?

You may send contributions by the week, month, or in one lump sum. You are ASSURED that your money is used for the purpose it is sent.

**THERE ARE HUNGRY CHILDREN AWAITING YOUR DECISION. HOW MANY WILL YOU FEED?**

Send cheques payable to—

**Belgian Relief Fund**  
FOR SOUTHERN ALBERTA,  
and address them to J. H. Woods, Hon. Secretary-Treasurer, Southern Alberta Committee, Herald Building, Calgary.

# New Blouses Meet the Growing Vogue for Simplicity

**T**ill mood of the people is always certain to reflect itself in the fashions they adopt. This fact is strongly exemplified in the blouses that are now being offered to accompany the new suits, which are taking quite themselves no superfluous adornment. The truth of the matter is that women are taking such an active part in the work created by the war that it is positively necessary that they put aside the frivolous, fussy styles and wear clothes that are more in keeping with their occupations. As a result, simplicity reigns.

Made of old gold Georgette is the blouse that would label any woman as being ready for business. While the high collar gives it a severe touch, the bib frills, the embroidered eyeslets and the hemstitching seem to tone it down a great deal.

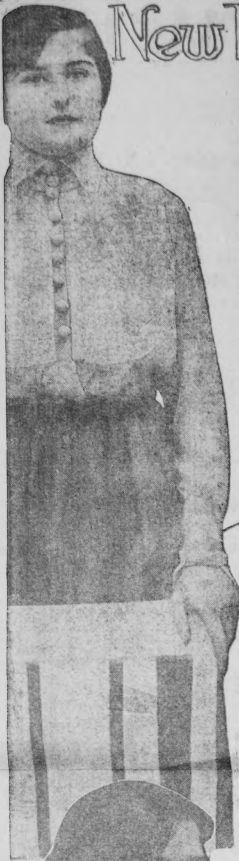

There is much talk of the collarless blouse for fall, in spite of the mannish one before described. It is such blouses as the one of blue crepe de chine that start

rumors of this sort. The embroidered "modillon" and the other touches of hand embroidery keep the blouse from being severely plain. Half buttons across the shoulder conceal the line of fastening.

A striking combination is seen in the white and pink model. Pink handkerchief linen is used to soften white crepe de chine. The important feature of this model is the seam or girdle with one end. To give this weight, a fringe of beads is added.

Another evidence that high collars are gaining hold is seen in the model of white Georgette crepe. Equally as important in the fashionable world is the fall down the front. Needless to say, this style is best suited to the woman who is not annoyed by excess weight.

The tieless blouse is a very important novelty of the new season. One expression of it is found in the flesh-colored model. Don't you love the flirtation here at the wrist that strive to evade the bow tied at the back? The fold of white Georgette just inside the neck line is a pleasing feminine touch.

Only One End to This Cash

A Tempting Novelty is the Tie On Model

## Duck Shooting Opens on Saturday, 1st.

Hunters will be deprived of the chicken and partridge shooting this year, for it is a closed season on account of the scarcity of the birds. Antelope season is also closed, and those who have made a practice of taking to the fields and wood with their shot-guns and rifles realize that an infringement of those laws means a heavy fine.

The following is a list of the open and closed seasons for game in Alberta:—  
Moose (two miles only) and mountain goats (two only)—September 1 to October 11. Antelope—closed. Deer, Moose (two only) and Caribou (one only)—November 1 to December 14. Ducks and geese—September 1 to December 11. Swans and cranes—closed. Prairie chickens and partridges—closed. Hungarian partridges—October and November. Hungarian pheasants—closed. Mink, Fisher, Marten—November, December, January, February and March. Otter and Muskrats—November to end of April.

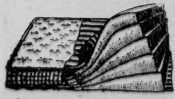

## New Suitings.

We have placed our Agency for Bow Island district with Mr. E. A. Nevers, the well-known tailor. Have a look at our sample and be sure to ask for "THE LINE THAT'S DIFFERENT."

**BEDELL FURNITURE Co.**

## Warning to Auto Owners.

At the last session of the Provincial Legislature, the following amendment to the Motor Vehicle Act was passed, namely:

"Section 13, sub-sec. 2. The headlights on all motor vehicles shall be so arranged that no portion of the direct beam of reflected or refracted light issuing therefrom shall, when measured seventy-five feet ahead of such headlights, rise above forty-two inches from the level surface on which the vehicle stands."

In addition to the above, owners of cars must have their vehicles equipped with hind lights so that the number plate can be easily distinguished.

The provincial police at Bow Island have just recently received instructions relative to the above, with orders to see that they are enforced.

## Local and General.

E. W. Bromley started work with his threshing outfit south of town on Tuesday.

Mass will be celebrated in the Roman Catholic Church on Sunday next at 11 a. m.

Mrs. J. H. Martin and family have been visiting during the past week. Mrs. R. Connors south of town.

There have been five infractions of the Liquor Act this month—three at Greasy Lake, and one each at Bow Island and Winnifred.

Found—A lady's Waltham watch on Main Street, Bow Island. Owner can have same on application to the Provincial Police, Bow Island, and paying for this advt.

Dr. E. R. Sawyer, dentist of Medicine Hat, will be at Bow Island, on the second and fourth Saturday, in each month for the practice of his profession. Advt.

Rev. A. W. MacMichael, head of the Southern Alberta Mission and Mrs. Stafford returned down from Fischer Creek on Monday to pay a visit to Rev. G. Her-ring.

Miss Isabel Murdoch, who has been visiting her aunt, Mrs. Jas. Russell, left for her home in Fischer Creek on Saturday last. Miss Murdoch will soon resume her duties in Westminster School, Lethbridge.

Miss Elizabeth Green, who has been visiting her sister Mrs. Jas. Russell at Poplar Grove Farm, left on Wednesday for her home in St. Vincent, Minnesota. Miss Green has spent the last five weeks here and during that time has made many pleasant acquaintances among our townpeople.

Miss Tena Schonert has received this week her diploma for grade eleven, in the examination for which she was successful in passing every subject. History was the only subject not taken up, she being advised by the department that her examination in this was unnecessary.

Mr. and Mrs. E. C. Ludtke returned on Tuesday from an auto trip taken by them to Coleman, taking in Taylor on the way. On their return trip they had an exciting visit to the town of Bellevue, where nearly the whole of the business section seemed to be on fire, and this necessitated them making a considerable detour through the back lanes in order to get through.

For additional local news see page four.

## "WIN THE WAR" BY ECONOMY.

What we mean by economy is purchasing your goods at the right place where you can get full quality for your money. The Bow Island Mercantile Co. is so well known for the excellence of its goods that it would be mere waste of words to enlarge upon it. Sufficient for it to say that in our Groceries, Dry Goods, including a full line of Gents' and Ladies' requirements, a selection may be obtained superior to any in the district.

Get our prices and inspect our stock. We ask nothing else. Your patronage is assured.

**Bow Island Mercantile Co.**

J. W. HURD, proprietor.

Services will be held at All Saints' Church on Sunday next at 11 a. m. and 7.30 p. m. respectively.

V. Huus, travelling supt. of the Bank of B. N. A., was inspecting the local branch this week.

Mr. and Mrs. S. G. Jamieson received a telegram this week from France informing them that their son Fred had been wounded in the thigh. Details as yet are lacking, but we trust when they arrive they will be somewhat reassuring.

The next meeting of the Catholic Ladies Altar Society will be held at Mrs. Frank Grand's on Thursday, September 6th. At this meeting the annual election of officers will take place and both town and country members are urgently asked to attend.

McLaughlin reputation, pre-eminent firm and fair, was not won by chance, but is due to the policy established and consistently adhered to for forty years in the manufacture of high grade vehicles. With the production of the first McLaughlin motor vehicle the same policy was conscientiously followed, that of giving the owner the maximum service for the minimum of cost. No matter what its price, a McLaughlin car must, and will give the maximum of that service for which it was intended, and must bear its proportion of the responsibility of maintaining that high prestige which has established the McLaughlin as
